

Foot pedal

Glass fiber and nylon wheels

Dust-proof pumpcover

Transmission jack 1000 KG

This vertical gearbox jack from Mammuth is designed for mounting and dismantling the gearbox and other components of vehicles.

The hydraulic gearbox jack is easy to operate with the non-slip foot pedal and is easy to maneuver with the 4 swivel wheels. The automatic safety valve guarantees the gearbox jack a controlled lowering speed that ensures safe lowering of the load.

In addition, the hydraulic plunger is fitted with a protective sealing cap and internal double-stage pump that ensures high lifting speed without load and controlled lifting speed with load.

The fiberglass and abrasion-resistant nylon wheels help prevent floor damage and provide greater mobility.

- Dual action pump
- Controlled lowering speed
- Foot pedal
- Glass fiber and nylon wheels
- Dust-proof pumpcover

Specifications

Lifting capacity	1000 kg
Stroke	840 mm
Min. height	1170 mm
Max. height	2010 mm
Wheel Diameter	100 mm

Oersterk.
