Storing the User Manual

- Keep the user manual near the electric shop press in an accessible location.
- Store the user manual in a place where it will not be exposed to moisture.
- Use the user manual in a proper manner, avoiding any damage to it.
- The use of the electric shop press by individuals who are not familiar with the instructions and procedures described in this manual is strictly prohibited.

This user manual is an integral part of the electric shop press and must therefore be stored carefully with the press. If the electric shop press is transferred to another owner, the user manual must be included.

2. Safety Instructions

- 1. This electric shop press is designed for general applications such as bending, pressing, removing shafts and bearings, etc.
- 2. Never use the electric shop press for applications it is not suited for.
- 3. Always use the appropriate tools for each specific task.
- 4. Operate the electric shop press correctly, ensuring that all parts and components are in good condition and that no parts are missing before use.
- 5. The electric shop press must only be operated by authorized individuals who have carefully read and understood this manual.
- 6. Keep children out of the workspace at all times.
- 7. Always position the electric shop press against a wall. If the electric shop press is placed in an open workshop, it is essential to install a protective cover at the back of the device. The base of the electric shop press must be securely anchored to the floor!
- 8. Ensure the operator wears protective clothing, gloves, a safety helmet, safety shoes, and hearing protection during operation.
- 9. To prevent accidents, always stay aware of ongoing work on the machine and remain focused on the task at hand.
- 10. Do not modify the electric shop press in any way. The pressure relief valve must not be adjusted under any circumstances.
- 11. Never exceed the rated capacity of the electric shop press and the V-blocks.
- 12. Failure to comply with these instructions may result in injury or damage to the user, the electric shop press, or the workpiece.
- 13. The manufacturer assumes no liability for improper use of the electric shop press or the processed components.

5. Maintenance

- Do not use a damaged or deformed product. If abnormal noises or vibrations occur, stop using the press immediately and inspect it. Contact the manufacturer for assistance. It is recommended to have the inspection performed by a repair workshop authorized by the manufacturer.
- Keep the press clean and well-lubricated to prevent foreign substances from entering the system. If the press has been exposed to rain, snow, sand, or dirt, thoroughly clean it before use.
- Store the press with the pistons fully retracted in a well-protected environment, away from corrosive fumes, abrasive dust, or other harmful elements.
- Regularly inspect the condition of the press.
- Store the product in a dry and corrosion-free environment.
- The operator must be aware that repairing this equipment may require specialized knowledge and facilities. It is recommended to have the press inspected annually by a repair workshop authorized by the manufacturer or supplier.
- Replace defective parts, stickers, or safety labels with components specified by the manufacturer or supplier.
- Products that appear damaged, show signs of wear, or are malfunctioning MUST BE TAKEN OUT OF SERVICE UNTIL THEY ARE REPAIRED.
- Necessary repairs should be performed by a repair workshop authorized by the manufacturer or supplier, provided the repairs are approved by the manufacturer or supplier.
- Only use original spare parts and/or adapters supplied by the manufacturer.

Hydraulic Oil

This product uses Mammuth CH22 hydraulic oil or other hydraulic oils with the same specifications. The hydraulic oil volume for different models is as follows:

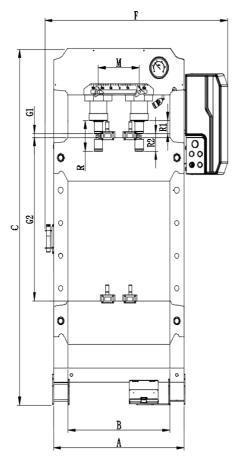

SP20HEM:	1.7 liters
SP30HEM:	2.0 liters
SP50HEM:	2.3 liters

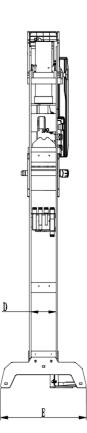

- The shop presses are supplied from the factory with sufficient hydraulic oil.
- The components of the shop presses must be kept clean, and care must always be taken to prevent corrosion.
- Always use original Mammuth accessories.
